Platform/DevOps engineer with 10+ years experience with AWS and Kubernetes

Platform Engineer at CHG Healthcare
Jan 2023 - Present
- Led rollout of Grafana dashboards integrating AWS CloudWatch and Okta events (via Loki)
- Created automated claude AI workflows for migration summary notifications
- Created staging environment, including recurring Aurora MySQL production data copy with scrubbing
- Built out .github composite workflows for CI/CD across repositories
- Primary contact for 4 engineering teams
- Build/maintain helm charts and AWS infrastructure (EKS, S3, KMS, IAM, LAMBDA, ECR)
- Operate Kubernetes CRDs for ArgoCD, Bitnami Redis, PostgreSQL, and Confluent Kafka
- Set up SAML SSO for Azure/Okta tenant user bases

DevOps Engineer at Smule
Apr 2022 - Dec 2022
- Managed self-hosted (GKE) services like GitLab, Vault, and Vitess
- Established canary deployment process for Nginx ingress annotations
- Developed strategy for hybrid cloud, with focus on disaster recovery
- Created Terraform IaC for Google Cloud resources
- Administered on-premises Kubernetes clusters with Ansible and RKE (Rancher)

Site Reliability Engineer at Carnegie Learning
Oct 2021 - Apr 2022
- Investigated production issues across applications written in different languages

DevOps Engineer at SkySlope
Jul 2019 - Oct 2021
- Led the DevOps team's infrastructure support for ~50 engineers
- Improved and maintained Kubernetes clusters and custom Helm charts
- Worked heavily with AWS S3, IAM, Route 53, RDS, KMS, EC2 ELB/ALB, and VPC Transit Gateway
- Guided CI/CD efforts by using Linux expertise to develop Codefresh pipelines
- Migrated existing Terraform IaC to Terraform Cloud Enterprise for all business verticals
- Wrote Golang Docker apps and deployed them as production microservices
- Managed Cilium CNI, Wireguard, Linkerd service mesh, Prometheus, and MongoDB Atlas

Software Engineer at SkySlope
Apr 2018 - Jul 2019
- Full stack role focused on backend integrations and ETL initiatives
- Used Node.js, TypeScript, React, MySQL, and Elasticsearch (ELK)

Software Engineer at Top of Mind Networks
Sep 2015 - Dec 2017

Associate Software Engineer at DealerSocket
Feb 2015 - Aug 2015

MS/BS Electrical Engineering
University of the Pacific, Stockton CA
